What are the differences between the Florida CDAE and the National CDA? [\(Back to Top\)](#)

- The Florida CDAE is a Child Development Associate Equivalency Certification that is recognized as equivalent to the National CDA. The certificate may not be recognized in other states. The Florida CDAE was developed to allow more accessibility to training programs in order to meet the diverse needs of child care providers around the state of Florida. The Florida CDAE can be obtained by attending and graduating from an approved program listed on the Department of Children and Families (DCF) website. The Florida CDAE has a 5 year renewal process.
- National CDA is a nationally recognized Child Development Associate Certification. The Council for Professional Recognition offers both the original certification and a renewal process every 5 years. For more information, please call 1 800-424-4310 or visit them on line at <http://www.cdacouncil.org>.

- If a Florida CDAE is not renewed prior to the expiration date, the individual may submit a renewal application for up to 3 years after the expiration date. Do the alternatives to a Florida CDAE and National CDA (ex: employment history exemption, formal education qualification) require renewal? ([Back to Top](#))

There are 5 ways to meet the staff credential licensing requirement: National CDA, Florida CDAE, Employment History Exemption, Formal Education Qualification or School-Age Certificate. Many times Employment History Exemption and Formal Education Qualification are referred to as a waiver, exemption or grandfathering. Please note, only the Florida CDAE and National CDA are eligible for Florida CDAE renewal. Employment History Exemption and Formal Education Qualification meet the staff credential requirement, however, a renewal is not required. The School-Age Certification program has its own renewal procedure available on the DCF website.

I have both CDA/CDAE and an AA or higher degree. What do I renew? ([Back to Top](#))

An associates degree or higher in field* or an associates degree or higher out of field with 6 credits in field qualifies as a staff credential that does not need to be renewed. Your formal education qualifies you as a credentialed staff person and is a higher credential than a Florida CDAE or National CDA and does not require renewal because degrees do not expire. If you meet this qualification and also have a National CDA or Florida CDAE, you are not required to renew your CDA/CDAE, however you may do so.

* In field is defined as coursework in early childhood or child development.

Can I teach VPK with my Staff Credential? ([Back to Top](#))

For VPK, the minimum requirement for the lead teacher in each VPK classroom is an active Florida CDAE or National CDA. You can also meet this requirement by having an associates degree or higher with specific educational requirements and work experience. A full explanation of requirements can be found by visiting the VPK website at <http://www.upkflorida.com>. On this website you can post questions, review frequently asked questions or review the VPK legislation by clicking on the link "Legislation" signed by the Governor. Pages 11 through 15 concentrate on both teacher and provider requirements.

How do I know if I have a Florida CDAE? ([Back to Top](#))

How do I locate a lost Florida CDAE or National CDA? ([Back to Top](#))

If you are unable to locate a copy of your CDAE or CDA credential, you have the following options:

- Contact the program that issued the certificate to see if they can reissue it;
- Contact old employer(s) to see if the certificate is in your file; and/or
- Review your transcript on line to see if the DCF form CF-FSP 5206, Staff Credential, was issued for your CDAE or CDA. A form 5206 may be used as proof of a CDAE or CDA, for renewal purposes.

What are the key points when submitting the Florida CDAE renewal application? ([Back to Top](#))

- The CDAE Renewal application is located on the DCF website.
- Send the original application (signed and dated). Do not send original supporting documents, as they will not be returned. Send only requested documentation.
- Upon review of your application, you will receive either a Florida CDAE Renewal Certificate or a "Short Fall" letter explaining those requirements that still need to be met before a certificate can be issued. Please allow 6-8 weeks for processing.
- Faxed documents are discouraged; due to incoming volume and low quality of some received documents.
- The typical wait time is 2 weeks, however, due to the recently increased volume of renewal applications, the wait time may be up to 2 months before receiving a certificate or a "Short Fall" letter.
- Faxed documents will be accepted, however, it will not accelerate the processing time.
- There is no need to "express mail" or "certify" the application.

- Membership must be an individual membership unless you are the director.
- Only one director per facility or home can use a facility level membership.

- If you're not currently working in field, you may use volunteer time to meet this requirement.

How does the Director Credential affect my Florida CDAE renewal? ([Back to Top](#))

Fundamentally, each credential serves a different purpose for licensing requirements and are not considered equivalent. All requirements must still be met before a Florida CDAE renewal will be issued.
- You may use your director credential coursework to meet your Florida CDAE coursework requirements as long as the coursework was completed within 5 years of your application being received by the department's Child Care Program Office.

- A CEU is an approved, validated and organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. Documentation is provided for CEU training.
- In-service training is course work that is not governed nor validated by a governing body. In-service training provides positive guidance and educational experiences, however, it is not considered continuing education units.
- CEU's may be used for in-service hours but most in-services may not be used for CEU hours.

How do I meet the course work requirement (CEU / 45 Hours / 3 College Credits)? ([Back to Top](#))

- Please remember there are 4 ways to meet this requirement, as outlined in the application. The goal is to ensure you have a total of 45 hours in professional education. You can obtain these hours through college credits, CEU's, professional education hours, or a combination of professional education.
- One college credit is equal to 15 hours and one CEU is equal to 10 hours.
- All coursework must be completed within 5 years from date application is received in the department's Child Care Program Office.
- In-service hours will not be accepted. If you have completed course work and did not choose to receive CEU's, contact your trainer to see if CEU's were available. A fee may be required to complete this.
